

TEAM TOOLKIT – TEAM DEBRIEFING AND EXPLORATION

Master of Management Analytics

1. What went well in your most recent interaction as a team? Review results as well as how you got there. Were trust and respect enhanced or not in your most recent interaction?
2. What did not go well in your most recent interaction? Review results as well as your process. How were team member relations impacted?
3. What would you do differently next time? Gain agreement on the most important thing that could improve the team's results. What about the team's process? The team's relationship?
4. What have you learned through exploration (by approaching another team)? Agree to approach a different team next time for additional learning.
